RAIL PROBLEMS HOLD INTEREST IN WASHINGTON

Washington, Dec 29.—While the joint congressional conference committee was discussing points of difference between the Cummins and Esch railroad re organization bills here today, in an effort to conciliate minor disagreements, and pave the way to consideration of the all-important antistrike provisions of the Cummins' measure, high railroad union officials were gathering to attend a conference called by Samuel Gompers, to formulate a definite policy to be pursued with regard to the offensive labor clauses of the senate bill

The chiefs of the four great railroad brotherhoods, and ten affiliated organizations, were to meet at 2 p m, to construct the railroad workers' platform, with regard to the anti-strike provisions

Prior to the union conference, officials of several unions affiliated with the brotherhoods, strongly indicated their conviction that the conference would adopt a declaration of principles similar to that o fthe railway machinists' union, which voted to strike if the more drastic labor provisions of the Cummins' bill should become law.

Committee representing six railroad shop trades unions, planned to meet with Director General Hines during the day to renew pressure looking to an increase in wages for shop employees Settlement of this issue was postponed last fall at the request of President Wilson, pending the results of the government's campaign against the high cost of living No definite time was fixed for this conference, and it was said that it would be postponed until Tuesday, should it conflict with the general meeting of union officials discussing the anti-strike law situation.

BIG OVERLAND STRIKE ENDED BY U. S. JUDGE

Rules Men Who Have Been Away From Plant Seven Months No Longer Employees

Toledo, Dec. 29—Judge John M. Killits, in United States district court has formally ended the strike at the plant of the Willys Overland Automobile Co, which was called May 5, and which culminated in rioting during which two persons were shot to death and a dozen wounded.

TO WITHDRAW PICKETS

Under Judge Killits' order all present pickets at the motor car plant must be withdrawn, and the company is placed on the same status it occupied prior to the strike

Judge Killits takes the position which lawyers say establishes a precedent, that a man who remains away from his work for a period of seven months cannot longer be classed as an employee, and therefore is not entitled to any consideration as a striker.

PERMANENT INJUNCTION

To officially end the strike, Judge Killits has granted a permanent injunction preventing labor union pickets from interfering with employes of the automobile concern.

"Pickets must be removed and the company allowed to proceed with its production as before the labor disturbances of last May, said Judge Killits I dont believe the union labor leaders will wait for a formal order to call off the pickets"

The formal order by Judge Killits will be issued early this week after a conference between labor leaders and lawyers representing the Willys-Overland Co

TIME HAS EXPIRED

No man or woman employed by the Overland last May, who is not now on the company's pay roll, is entitled to any consideration as an employe or any rights in the federal court, Judge Killits said

He also made it clear that he could not recognize the rights of individuals to prolong a labor controversy after its substance had fled, and to demand that it be accorded consideration in labor disputes

BIG CANDY CANE HAD ALL GUESSING

The huge cane of striped candy hanging in the window of the Candy Shop on the corner weighed—well, what do you think it weighed? Not 500 pounds, though some guessed that much, even though it was suspended with a few pieces of pink ribbon.

Well, it weighed just 13 and one half pounds And the lucky guesser of its correct weight was Helen Colgan 8 years old, of 215 Lodi street

That is, she was the first to guess 13 1-2 There were ten guesses of the correct weight, while the number of "long shots" was surprising It was a boy who estimated the cane at 500, but there were many women who judged its weight to be 135, 150 and 200 pounds. The lowest estimation was 1 1-4

In all, 1645 guesses were registered. The police force signed up as well as many business men

REVEALS CLASH BETWEEN NAVY AND DIPLOMATS

Washington Dec. 29—Statements by Rear Admiral Decker, former naval attache at Madrid, that he and his assistants were instrumental in preventing Spain from joining the central powers during the enemy offensive of March 1918, and that his work was hampered by the American ambassador, probably will be investigated during the congressional investigation of the award of naval decorations by Representative Lufkin, Republican, Massachusetts of the House naval committee

Rear Admiral Decker's statements were contained in a letter to Secretary Daniels, setting forth the reasons that prompted him to decline the navy cross for which he was recently recommended by Daniels

In my opinion the letter read this award is entirely inadequate to the services that were performed by the officers of the naval attache and those who worked with me The effect of this work was to keep Spain from entering the war against us at the time of the enemy's March offensive, 1918 also a reduction of the submarine activities on the coast of Spain.

"If my estimate is correct," the letter said "my services and those of those who worked with me in spite of the opposition of the ambassador is certainly greater than the work done by any single battleship in the war or by any official stationed on shore duty in an administrative capacity

The letter contains the first intimations of friction during American diplomatic and naval officials at Madrid during the war

Lufkin said members of the committee on naval affairs from the house and senate with whom he had discussed Decker's letter had expressed themselves as in full agreement with his opinion that the statements deserved congressional investigation Decker and other naval officials stationed in Spain during the war probably will be called before the joint investigating committee

PROTECT THE OFFICIALS

Yesterday morning six bandits captured the sheriff his deputies in Lucas county, shot one of the deputies, st the others into the jail and released the prisoners fled.

Almost daily, there is a record of some officer of the having been assaulted, seriously injured or murdered, the frequency of these incidents is positively alarm-

Violence when committed upon a civilian is a very se- offence. And when committed upon an officer who ersonates in himself the power and majesty of the law, an infinitely more serious offence. In the later case it t only an attack upon an individual but it is an attack the institution which the people themselves have set o express and to execute their will. And an attack that instrumentality is a defiance of the state and so itself.

For a man to attack an officer of the law in the dis- ge of his duty or to attack him in an unprovoked man- as in this case in Toledo, is for the outlaw to forfeit onsiderations of sympathy and the ordinary consider- of extenuating circumstances which might be ex- d to any other criminal. The penalty for an assault attempted assault upon a public official of any kind d be severe to the very extreme and the punishment d be meted out as swiftly as a court can be convened he evidence produced. All other litigation of every and character should step aside in such a case to the hat the strength and protective power of the law be upheld.

ur sheriffs, constables, police and general officers of eace are in constant danger at best, as they are ferret- ut wrong doers, protecting our homes and lives and ing culprits to justice. And we should throw around to the highest degree possible the protecting arm of laws, quickly administered and thoroughly exe-

RAILROADS HAVE A REPRIEVE

The fact that the railroads will not be turned over to owners until March 1st is a matter for relief to all who have been reading the conditions which prevail railroad situation.

n many cases, the act of the government in turning the railroads at this time would be that of turning a system of rolling stock and rails and outfit, almost to fall to pieces and which would be in the hands of eceiver inside of a few weeks. To do this, under nt conditions, without providing a credit for these itions, so that necessary improvement may be made, be disastrous almost to the point of criminality. is to be hoped that Congress will address itself to uestion and find some solution of it prior to March that this delay will be used as it was intended by the lent, namely, to afford a remedy for a lamentable ion.

"HOW DO THEY DO IT"

We do not know how much the canny Scott had in cket when he embarked on board the ship. But we that there were only two of them, himself and wife. ute, across the sea, he gained one to the family and housand dollars to his purse. None but a Scott could

The dispatches say that the baby was born on board at, that the passengers, because of the Christmas sea- aised seven hundred dollars cash, that a Ford rep- ative who was there gave the proud father an order automobile and the father raffled it off on board the or thirteen hundred dollars. So the parents left the with a baby and two thousand dollars richer than they got on board this ship.

his is the story that comes from an ocean liner and nother illustration that you can turn your greatest nto fortunes. We are going to send for that father us print paper.

We were reading this dispatch to one of the staff and d, "That was not luck at all, that was just luck. t had been me and my wife going across, instead of g seven hundred dollars and an automobile for the of a baby, we probably would have been charged ex- re for the baby, if we would not have been arrested lping a stowaway get across."

ROCKEFELLER'S GIFT

ohn D. Rockefeller has just added to his benefactions undred million dollars. Half of this money is pro- to aid in raising college salaries. The other half is in iterest of medical research throughout the world. makes the total gifts of Mr. Rockefeller amount to five hundred million or a half billion dollars. This ndred million is the largest amount that has ever given as a single gift by an individual since history

is a long way from Mr. Rockefeller's original gifts wn in his account book, in which in an address to the Avenue Men's Class, years ago, he showed that he iven regularly a penny a Sunday to the Sunday l in his early days, to this tremendous amount of that he is now contributing.

Whatever may be said of the methods by which Mr. ...r got his money, whatever may be said of the ...d righteousness of the claim that he legally grab-bed and greedily kept everything that he could legally lay his hands on and relentlessly forced competitors out of the field, we must admit that he has applied sane, scientific and wise principles to his gifts.

The world today is demanding more justice than charity. It is wisely asking the question, "Where did he get it?" rather than, "What is he doing with it?" Rockefeller is the Midas of another age. It is probable that the insistence of the future will be made toward a more equitable and just division of profits, and when that is done there will be less need for the so-called charitable acts such as have graced the careers of our two greatest financiers, Mr. Rockefeller and Mr. Carnegie.

THE WRONG SANTA CLAUS

FOR THE BOYS AND GIRLS OF LORAIN COUNTY

What Shall I Be? Answered for Girls

The Saleswoman

BY ELIZABETH MATHER

"Mother, what do you think? I'm to be excused from school for two whole weeks to clerk down at Jordan Marsh's during the Christmas rush," Edith burst out as she came in from school.

Edith was one of the hundreds of girls in the Boston High Schools who had taken Salesmanship as a Senior elective. On Saturdays and Mondays, these girls are given practical experience clerking in Boston department stores where they earn several dollars a day. Those who make a high average in school are excused during the holiday seasons to help out in the stores.

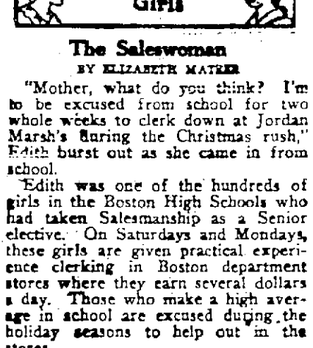

This co-operation of school and stores has also been successfully tried out in Minneapolis. It means that many girls, upon graduation from high school, walk into positions that it would have taken them several years to get had they left school and started to clerk.

Stores all over the country recognize the need of educating their clerks. Most of them have educational departments which provide classes and lectures for all grades of clerks. Many have opened continuation schools for young clerks who have left school between 14 and 16 years of age.

There is a real science in salesmanship which every girl should recognize. A genuine smile and good health are natural assets, but a knowledge of how to approach a dyspeptic customer is invaluable.

Study and application are being made the basis of promotion in many stores. This gives the wide-awake young clerk an equal chance with the indifferent one who while of long experience, is too stubborn to learn new methods.

Many lines of promotion are open to the ambitious saleswoman. She may

become head of stock or assistant buyer; she may advance to a position in the educational department or become a teacher of salesmanship; she may be put on the road as a travelling saleswoman.

The girl who looks upon salesmanship as a profession that requires training just as do teaching, nursing, and the arts should send to the U. S. Bureau of Education for Bulletins No. 34, 1916 and No. 9, 1917.

What Shall I Be? Answered for Boys

The Plumber

BY J. H. MILLAR

"Joe Davis said, when he quit his job as cashier to take over a laundry 'A man can get to the top quicker by cleaning up $300 a month and having some rattlebrain call him a *Chinaman* now and then, than by starving to death on $50 a month and having everybody call him a *Banker*'."

So quotes Mr. John Burton, a retired successful plumber and steamfitter, in a book made up of letters which he wrote to his nephew, a young plumber, telling him how to make his business pay.

Plumber an Engineer

A pipe-wrench and a pair of overalls do not make a plumber. Nowadays with sky scrapers, big apartments, high office buildings, and beautiful suburban cities—the man who installs the water systems, the drainage systems, and the complicated steam and hot-air heating systems, must really be an engineer. Plumbing is rapidly developing into the newer profession of "Sanitary Engineering." A good plumber makes a city more healthy; he spoils a great deal of business for the doctor.

Good Education Valuable

In the Chicago Public Library there are listed just 51 different books on "Plumbing," and at the end of the list is a card which says, "See also: 'Hot Water Supply,' 'House Sanitation,' 'Pipe Fitting,' 'Sanitary Engineering,' 'Sewerage,' 'Solder and Soldering,' 'Steam Pipes,' and 'Water Pipes'."

When you get through looking at this list you will wonder how any man can be a plumber without a college education. Plumbing is a science; it requires education.

In high school you should pay especial attention to *physics* and *chemistry*. Learn all you can about metals and the effect which water has on them. Study also *mechanical drawing* if you can, for later you will have to work with blue prints all the time.

If you are going to be a plumber you better start to get ready, for, in addition to all these things, you must learn how to be an independent business man.

JAP STATESMAN PLEADS FOR NEW ANGLO ALLIANCE

Marquis Okuma Sees but Little Stability in League of Nations Now

Tokyo, Dec. 26—Marquis Shigenobu Okuma, Japanese statesman, is strongly in favor of a renewal of the Anglo-Japanese alliance which expires in 1921.

Revision of the provisions should be made in consonance with the requirements of the new world conditions, he says, but the fundamental principle of the alliance, that both England and Japan should maintain peace in the far east and in India and protect their mutual interests, should remain unchanged.

"With America and Great Britain as its center, the league of nations can be said to have greater possibilities than the 'Holy Alliance,' he continued. "Consequently, if both countries act with mutual consideration the league may be influential. Once these countries run counter to each other, however, the results cannot be predicted. We cannot see at present the absolute stability of the league of nations. The league cannot secure the complete abolition of armaments."

RAILWAY ORDER TO CALM WAGES FIGHT, IS HOPE

Officials Believe Return Delay Will Please Trainmen Awaiting Decision

Washington, Dec. 26—President Wilson's proclamation returning the railroads to private control March 1 lends a new aspect to wage problems now before Director General Hines.

In the opinion of the railroad administration officials, the President's order should tranquilize the labor situation inasmuch as the time of government control is extended by two full months. Union officers have been pressing for a settlement before the roads went back, on the supposition that the transfer would be made on January 1, the date originally set. They have not indicated how the proclamation will affect their plans.

The only wage demands now before Hines are those of the 500,000 shopmen. They were refused a general increase of 25 per cent last summer. It remains to be seen what view the president and the director general will take of the shopmen's renewed demands for more money. It is understood the shop workers are reported to be growing restless over the lack of action on their demands.

Demands of railroad clerks for more money now are before the board of railway wages and working conditions.

Extension of the time of federal control will necessitate placing additional contracts by the railroad administration. Purchases up to this time generally have been for delivery up to the end of the year. Rails and ties must be bought. Other materials for maintenance work are needed.

Orders by Hines for an inventory of materials on hand as of January 1 will be changed to have the inventories as of March 1.

Barleycorn May Have His Say So on Seas, Anyway

Washington, Dec. 26—Prohibition may prove the dominant factor in deciding the question of what policy the shipping board is to adopt with regard to operating passenger lines.

Officials discussing tentative plans to sell to private owners 102 former German vessels, taken over by the United States in 1917, said the board's recent decision to prohibit the sale of intoxicating liquors on shipping board vessels would make co-operation with privately owned American vessels and foreign lines virtually impossible from a business viewpoint.

U. S. Fords Soon Will Be Running on Rumanian Oil

Bucharest, Dec. 26—Contracts have just been closed by the Standard Oil Company with the Rumanian government and with private firms there for half a million barrels of refined petroleum, according to a Bucharest dispatch. It is said the price paid was $9,150,000, and that the oil will be taken to America by way of Constantinople on ships supplied by the American government.

"THE MESSIAH" WELL RENDERED BY METHODIST CHOIR

The music lovers of Elyria were given a most enjoyable time at the Methodist church last evening The choir of thirty-five voices, under the direction of Mr Ralph E Wright of Lorain has been producing some most excellent music and to the great satisfaction of the large audience Sunday evening they sang all of the first and second parts of Handel's oratorio with an interpretation that was most commendable Miss Louise Brown presided at the organ and to her skill and masterly ability no small credit is due for the fine rendition of the music Mrs Ayers soprano Mr Masson, tenor, Miss Webster, contralto and Mr Wright basso sang well the difficult solos Without any reflection upon the others however, Mr Wright's singing of 'Why do the nations so furiously rage?' was certainly a revelation No one knew of his having such ability as he displayed in the rendering of the difficult solo His standing as a musician and leader is well established—but last night's solo place him in the list of our best singers The concert was a fitting close to the celebrations of Christmas and all who heard will be the better for that wonderful message in song

THREE HUNDRED FARMERS JOIN IN FOX HUNT

Litchfield Farmers Mean to Rid Community of Menacing Animals — Chatham Has Big Hunt Next Tuesday

Medina, O., Dec. 27.—Foxes, which crossed Lake Erie over the ice during the severe cold winter two years ago, are multiplying so fast and menacing poultry so extensively in Medina County, that townships are organizing hunting parties to exterminate the pests

The hunting is exceeding lucrative considering that fox pelts are worth from $17 to $27 each.

Chatham, O., Dec. 27.—All men in Chatham township will be distributed on the township line and at nine o'clock next Tuesday morning will commence closing in in the fox hunt expected to be the biggest hunt since the world-famous Hinckley hunt, near here, was held upwards of a century ago

The men will be armed with shot guns only No dogs will be used, no rabbits will be killed Bag will go to highest bidder proceeds of which will be utilized for the banquet in the evening to be participated in by all hunters

It is expected that over four hundred Chatham township farmers will join in the big fox hunt

Litchfield, O., Dec 27.—Over three hundred Litchfield farmers, stationed on the township line, commenced closing in on foxes in the big hunt started at nine o'clock this morning

It is expected that the some score foxes known to be harbored in the township will be practically cleaned out when the hunt ended

Because of there being insufficient hunters to make a solid line around the township some of the foxes are known to have escaped unseen

The Saturday hunting are expected to be continued until the menacing foxes are all exterminated

UNION APPRENTICE IS TOLD TO GIVE UP HIS NON-UNION FIANCEE

Roseville, Cal., Dec. 29.—What will the unions do next?

This very natural query was propounded here by Mrs Madaline Rogers, who declares that her son has been informed by his local union that he would either have to give up his non-union sweetheart, who accepted employment as a phone operator during the recent strike, or else get out of the unfon himself. A delegation from his local, declares the mother, waited on him and issued the ultimatum.

The youth is Silvera Rogers and is serving an apprenticeship.

The following lines appeal to us so strongly as expressing our sentiments and the thought conveyed so appropriate to the New Year, that we give it to the readers of The Chronicle-Telegram not as a New Year's Resolution, but as an eternal truth in the world of business.

Business Is Business

By BERTON BRALEY

(Reprinted from "The Nation's Business)

Business is Business," the Little Man said,
'A battle where everything goes,
Where the only gospel is 'get ahead,'
And never spare friends or foes,
'Slay or be slain," is the slogan cold,
You must struggle and slash and tear,
For Business is Business, a fight for gold,
Where all that you do is fair!"

"Business is Business," the Big Man said,
"A battle to make of earth
A place to yield us more wine and bread,
More pleasure and joy and mirth;
There are still some bandits and buccaneers
Who are jungle-bred beasts of trade,
But their number dwindles with passing years
And dead is the code they made!

"Business is Business," the Big Man said,
"But it's something that's more, far more
For it makes sweet gardens of deserts dead,
And cities it built now roar
Where once the deer and the gray wolf ran
From the pioneer's swift advance;
Business is Magic that toils for man,
Business is True Romance.

"And those who make it a ruthless fight
Have only themselves to blame
If they feel no whit of the keen delight
In playing the Bigger Game,
The game that calls on the heart and head,
The best of man's strength and nerve;
"Business is Business," the Big Man said,
"And that Business is to Serve!"

A STORY AND HALF BUNGALOW

DESIGNED BY CHAS. S. SEDGWICK, ARCHITECT

HERE is a design for a "Story and Half Bungalow," which may be called a "Cottage Bungalow," having two bed rooms on the first floor in addition to the regular living rooms and two bed rooms on the second floor. The plan is very roomy and convenient. It is frame construction with stucco exterior and shingle roof. The arrangement is best suited to a south front. The general size is 26 ft. in width and 48 ft. in depth, exclusive of the front sun parlor.

The main entrance is on the right side with an open porch that may be inclosed with glazed sash in winter months and screened in the summer. The main living room extends the full width of house and has a projected window with seat on the right and and a chimney and fireplace on the left end with window on each side. The front opens into the sun parlor with wide glazed French windows, there is a coat closet opening into the living room and on the right a door to bed room. On the left side is a wide columned opening connecting the dining room. In the rear on the right is a second bed room and on the left is the kitchen with stairway between, made with grade entrance in the rear to basement.

The second story has two good bed rooms and also a large central space that may be used for billiard able if desired This bungalow was recently built and is very pretty and satisfactory. The present estimate of cost is from $4,500 to $5,500, exclusive of heating and plumbing There is a full basement with rooms for laundry, heating plant, fuel, etc.

This would be an appropriate Dwelling for **EASTERN HEIGHTS**

WHY IS A HEADACHE?

VARIOUS CAUSES FOR THIS COMMON AFFLICTION

ANEMIA OR BLOODLESSNESS A VERY COMMON CAUSE

PEPTO-MANGAN OVERCOMES ANEMIA AND TENDS TO PREVENT HEADACHES

When one has an occasional headache it is usually due to some transient or passing cause, such as indigestion, eye strain over-tiredness, etc. When however, one suffers from frequent periodic headaches there is always some special reason for it. Among the most common of such reasons is Anemia or Bloodlessness This condition is especially frequent among girls and young women and those whose occupations or habits of life keep them too much indoors. The one important necessity in such cases is to build up the quantity and quality of the weak and watery blood Gude's Pepto-Mangan is exceptionally valuable for this purpose. It increases the number and improves the quality of the red blood cells, those vital little bodies which carry nutrition to all parts of the body It improves the appetite, imparts color to the face, and restores health and strength to the body generally. After a short course of Pepto Mangan the headaches decrease in frequency and severity, and finally disappear, if they are due to Anemia Pepto Mangan may be had either in liquid or tablet form as preferred When buying Pepto-Mangan be sure the name Gude's is on the package Without Gude's it is not Pepto-Mangan —Advertisement.

Ewing will take a squad of about ten men on the trip which will start December 30 The Marion team will be played on that evening On December 31 New Years Eve the Rats and Bucks will stack up against the Goodyear Tire and Rubber Company team in Akron This game should be interesting in the extreme, as the Rubber City puts out several strong quintets one of the strongest being the Good year aggregation There are many Wesleyan men in the employ of Goodyear, among them being Fat' Harris and the locals, should have a good time while in the city New year's night will see the Ewing men in Elyria, where they run up against a combination of stars who call themselves the 'Court House Rats . On the way back to Delaware, the tem will stop in Galion, where the team representing the Lambs Club will be met in the final game of the trip While Ewing hardly expects to win all of these games which come on successive nights he expects the team to get a world of good in the form of experience from the journey

I 1 HENS IDLE; NOW LAY 221 EGGS A MONTH

Mrs. Young Almost Gave Up Raising Chickens. Then She Tried this Plan.

"When I accepted your offer and tried Don Sung, I had been getting 1 or 2 eggs every other day The next month, using 50 cents worth of Don Sung, my 11 hens laid 221 eggs I almost gave up raising chickens, but now I have decided to raise as many as I can."—Mrs. F C Young, Bellefonte, Pa

Feed is too expensive to waste on idle hens You can easily start your hens laying and keep them laying, even in coldest winter To prove it, all you need do is accept our offer, as Mrs. Young did.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, tell us and your money will be promptly refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic It is easily given in the feed, improves the hen's health, makes her more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail prepaid. Burrell Dugger Co., 334 Columbia Bldg., Indianapolis, Ind.

SANDUSKY MAN ACKNOWLEDGES HE MADE A MISTAKE

Thought there was Nothing that would get his Liver to Acting, Overcome His Constpiation, or Relieve the Gas in His Stomach

DECLARES THE NEW MEDICINE, DRECO HAS DONE ALL THIS AND MORE FOR HIM

I am free to admit that I made a mistake when I thought my troubles were so stuborn that nothing would overcome them, said Mr H E Beamer of 63? East Adams Street Sandusky O Mr Beamer is a well known moulder at the Farrall Cheek Foundry Co

My stomach was in bad condition for after meals I'd fill up with gas and be very uncomfortable from belching and griping pains I know my liver was sluggish for I often got dizzy and spots would dance before my eyes and my head would ache something awful

I frequently had to get up at night on account of my kidneys and had backache and dull pains over my kidneys My bowels were bound up so that I had to take medicine for that trouble nearly every night

As soon as I read about the new medicine Dreco I got a bottle and it went right after my troubles and in a few days I could see that it was doing the work My improvement continued so today I'm buying three bottles of Dreco and feel that they are going to fix me up in fine shape Dreco is the best medicine I ever took

Dreco is composed of the juices and extracts of many different roots herbs barks and berries, which act on the stomach kidneys liver and bowels and purify the blood It relieves constipation, prevents gas from forming in the stomach, increases the appetite insures sound refreshing sleep banishes catarrh of the head and takes the pain out of rheumatic joints

All good druggists now sell Dreco and it is highly recommended in Elyria by Eberts Drug store

"DON'T KID YOURSELF"

There is a slang expression which we sometimes hear ...t embodies a thought well worth while. It is, "Don't ...yourself." Don't attempt to fool yourself. Don't de...ve yourself. Do not be afraid to face the facts for ...entually you will have to face them, and if you "kid" ...rself into believing that which down in the innermost ...sses of your mind you know is not true you are simply ...aling from the future. You must finally face the crime ..., to get on the right track, you must make restitution.

It is as true regarding one's own life as it is in regard any other trust that is imposed upon one. Many people ...so prejudiced along one line of thought that they do not ...nt facts that prove that they are mistaken or wrong. ...ey will deny the truth when its admission must con...nd them or cause them to change their position.

Men who can conquer the forests, who can conquer the ...ds, who can conquer others are often floored by their ...n prejudices. The first great thing is to conquer oneself, ...get possession of one's own mind, to weigh the truth, ...be perfectly willing to go along the path that the holy ...t of truth and reason lead. This is in part what the ...pture writer referred to when he said "He who ruleth ...own spirit is greater than he who takes a city."

...E PEOPLE SHOULD RETAIN THE INITIATIVE AND REFERENDUM

...Governor Lowden of Illinois in speaking in New York ...w days ago opposed the initiative, referendum and re...and cited the New England town meeting as being a ...re and urged that the republican, representative form, ...overnment was an advance over the type as used by ...arly settlers.

...There is no doubt but that the initiative and referen... has been abused in some cases But there is no good ...g that is not misused at times. The New England ...i meeting, in principle, never was a failure. It reached ...point where it was impossible for all people to assem...ogether in one common meeting room and there de...ine upon officers and policies. But the principle that ...an could do for himself better than any other man ...d do for him still remained true and "representative" ...rnment has been developed as a necessity and a make ... for pure democracy and not because it is better.

...Franklin, the sage, at one time said, 'If you want your ...ess done, go. If you don't want it done, send." And ... occasionally you may be able to get a representative ... your work better than you are able to do it yourself, ... cases are so rare that you can practically determine ...t is the exception that proves the rule.

...s it to be imagined that if it were possible for the ...e to meet together and settle upon matters in this ...ry, that we would be in the shape that we are, as a ... of legislative and congressional delays and short ...edness?

...The initiative and referendum have been devices ob... by the people to more nearly approach the type of ...cracy illustrated in the New England town meet...nd there is no question but that they have been a tre...ous help in preventing bad legislation and in enact...etter laws. Legislators and men who are inclined to ...ndue influence upon legislators, know that it may be ...ly valueless to buy or bludgeon a particular act ...gh the legislature when the people have a final voice ...ard to it.

...Again, legislators who might not be inclined to voice ...ill of the majority in certain legislation, realizing ...he people can initiate themselves if they fail to get ...ss in the legislature, are inclined to carry out the ...s as they consider the majority wishes to be. With ...ower finally resting in the hands of the people them..., all legislative servants will naturally do more faith...ork. Special interests realize the futility of an effort ...feat the will of the people in the legislature when ... is a method by which the people can reach the par...r situation.

...We believe that the initiative and referendum have ...vindicated and are being vindicated in the states where ...ed. The difficulties and mistakes made by the people ...elves are suffered by the people and may be reme...by them. The means of remedying these mistakes ...d not be taken from them.

When a man did a job from beginning to end, there was some incentive to do a good job He had pride in his work But with the introduction of machinery and the diversification of industry, even that pride in the finished product no louser is possible

The result of it all is seen in the discontent and the unrest which is everywhere manifest Fortunately a great many employers of vision are beginning to see the way out As a special agent of the government, I have seen in different parts of the country in a great variety of industries, the difference in the attitude and the efficiency of workers where the new spirit of industry has been introduced, from those

POKER-PLAYING PASTOR PREFERS MINING CAMP TO A CITY PASTORATE

Columbuus, Dec. 29.—Here's a preacher who not only knows every card in the deck, but who can play, and does play, poker.

His name is Rev. R. Arthur Basham, Presbyterian clergyman.

Leaving the city, he has become parson to miners in copper camps at Athapupskow Lake, Northern Manitoba. He would rather live the rough and ready life of this Canadian mining camp than hold down a $6,000 pastorate in one of the big Eastern cities of the United States.

"I'd rather be Santa Claus to a bunch of miners than a minister to all the elders in Christendom" said Basham.

"I have played cards with the miners and I am willing to match the miners' bible—a deck of cards—against the Bible I teach, any day.

HADN'T SHAVED SINCE CIVIL WAR PLANER REMOVES 'EM

Hayward, Cal., Dec 29 — For the first time since the Civil war Henry C. Boylston, of this city, has trimmed his beard. Boylston's detachment of the Confederate army surrendered he vowed he'd never trim his whiskers as long as he lived.

He was planing lumber with an automatic planer, operating with rotating knives. Length whiskers tucked in his vest, he bent over the board, but he bent too far. The knives caught his beard and with a yell of pain he bid good-bye to his hirsute adornment It was the first time since 1865 his chin had seen the daylight.

A clean shave at the barber shop finished the job.
